Part 3 Reading

Read the text about movies, and for questions 46 to 50, choose one correct answer (maximum – 15 points).

No other art form has had quite the impact on our lives that the motion pictures have. Indeed, the movies are truly an art of our time — they were born and have come of age in the twentieth century, and they now demand the serious consideration given to the other arts.

Everybody loves a story. Children mesmerized for hours before a television set watching cartoons they are seeing for the fifth or sixth time, or long lines of shivering movie-goers outside a theater¹ on a winter night, convincingly demonstrate that truth. And today the love of story, as these examples suggest, is required much more often than not with a narrative told in visual images.

There can be no question about the supremacy of the visualism age in the realm of story. The fact that images and movies have many uses besides story-telling simply adds gratuitous evidence in support of the observation that the life of the mind today receives its nourishment primarily from visual, rather than verbal sources.

What has been questioned is the capacity of the movies for doing good. Youthful and perhaps too much a work horse in the cultural market-place, they have been vulnerable to the charge that they are unable to awaken and refresh the mind, that they cannot tap the deepest reaches of man's spiritual life and so, incapable of articulating anything of consequence, are at best a rudimentary art. Yet the movies are not now as disturbing for intellectuals as they once were. One reason, no doubt, is that they are no longer, at least in the United States, the popular art; television has stolen the limelight.

46. Motion pictures are so influential because ...

- A. people want to be entertained
- B. people love stories
- C. they are the art of our century

47. Movies appeared in...

- A. 21 century
- B. 19 century
- C. 20 century

48. The main source for nourishing the brain is...

- A. visual expression
- B. verbal expression
- C. narrative expression

49. Why does the capacity of the movies for doing good cause doubt?

- A. images and movies have many uses
- B. movies are too popular at the cultural market
- C. the movies are not now as disturbing for intellectuals as they once were

50. Movies are not so popular in the USA because they...

- A. they have been vulnerable to the charge
- B. are replaced by TV
- C. they are unable to awaken and refresh the mind
