Proposal

Introduction

As a member of the club of young leaders, I'd like to present my proposal describing three events I think should be organised during the upcoming festival.

Events

The first event will show how our grandparents fought in the war against Germany and its allies in the 1940s.

After that, the second event will show a battle in the ongoing war against Ukraine. Finally, the third event will picture a happy life in our town after Russia would win the war against Ukraine. The characters will thank the soldiers for participating in these wars.

Connections between the times

The people of the past and the present have died or are dying in order for the future generations to have a happy life.

Benefits for citizens of the town

These events will remind people of those who died or are dying for their country. If my proposal is implemented, more people are going to thank and remember these soldiers.

Requirements

I plan to run a competition for the best implementation of my ideas. Then I will select the winning group. They are going to get twenty thousand roubles ~~as~~ ^{as a prize} to buy or make all of the needed equipment. They will also get thirty thousand roubles for winning the competition. This way we can get high quality performers and equipment for a relatively cheap price of fifty thousand roubles.

Conclusion

Therefore, my idea will raise the level of respect for soldiers. My proposal also won't require a lot of money to implement.
