Writing

ANSWER SHEET

The past, present and future of Dno.

Our club received a grant. We came up with three events, that connect generations of different times. I'm gonna tell you about them in my proposal.

Life on the 64 squares.

The citizens of our town have been playing chess since its foundation. We will have three locations, where you'll be able to play. The first one is from the past, it's gonna have real chessboards and mechanical clock. The next one represents present times, it'll have digital chess on laptops. The last one is from the future, you say your moves and the board makes them.

Not a single day in silence!

Music has always been a part of our lives, but its style changes as time passes by. There's gonna be a concert, first it's gonna be classical music, secondly, modern style's gonna change it and electronic music of the future is gonna finish the concert.

Around the world by train.

Our town has a huge railway station. There citizens will be able to see train with steam engines from the past, modern trains and trains that will appear in the nearest future.

Those events are going to inspire people to invent new ways of doing something that they do. Citizens will see, how people changed everything in a better way. And with I hope my proposal impressed you.
